Subject: Teck Cominco risk assessment

I hope you've had a chance to catch up on emails after being out of the office last week! I thought the
(b) (5), (b)(5)attorney work product, (b)(5)Attorney-Client

So... looking at my calendar (and for Tom Fontaine, my division director who would like to come talk with folks in Region 10 as well!) for a possible time to travel to Seattle for having such discussions, it's obvious that August is just about over and September is full up. Would you folks be available for a few hours sometime during the 1st or 2nd week of October? Let me know your availability and we'll see what we can do to find an agreeable time.

I look forward to talking with you and to continuing to work with you on the Teck Cominco issues, or other similar technical concerns related to risk assessment.

Cheers!
Anne
